Emory University Student Campus Climate Survey 2015

Page - Campus Climate Survey

Emory University is committed to fostering a safe, caring, and healthy community for faculty, staff, students, and visitors. The purpose of this survey is to help Emory improve campus policies, programs, and practices related to sexual violence This survey asks you to share information regarding certain types of unwanted sexual and physical experiences you have experienced as a member of the university community.

This survey will take about 30 minutes to complete. Your cooperation would be greatly appreciated and would contribute to our understanding of a very important aspect of student life at Emory Campus. Your participation is voluntary, and you may choose to skip questions or stop responding at any point.

If you agree to participate, your responses are completely anonymous. Your responses will be reported in terms of groups of students rather than as individual cases. Your questionnaire has been assigned a number and will be referred to in terms of that number. We understand that you may experience emotional discomfort while answering some of the questions. At the end of the survey you will be provided information about resources should you wish to talk with someone further.

If you have any questions regarding the survey or its content, please contact emoryclimatesurvey@emory.edu.
